THE DAILY JOURNAL.
THE EVENING GAZETTE.

The Greeks were physically perfect and beautiful because they were healthy. The man who suffers from ill-health cannot be physically robust and manly. The woman who is sickly cannot be beautiful and womanly. Most all forms of ill-health have their inception in disorders of the digestion. When the digestion is bad the blood becomes impure, and is imperfectly supplied with the food elements that build up new and healthy tissues, and tear down, and carry away those that are inert and half-dead. The nerves are not rebuilt from day to day with new, vigorous, active fibers. Every organ, tissue, muscle and nerve in the body is half furnished for healthy nutriment. Almost any disease in the category of human ills may be the result of this condition. Most frequently it is the most deadly of disorders—consumption. Sometimes it is some other wasting disease. Again, it may be scrofula or some skin disease.

There is a sure preventive and remedy for these conditions and maladies. It is Dr. Pierce's Golden Medical Discovery. It corrects all disorders of the digestion. It restores the lost or failing appetite and invigorates the liver. It fills the arteries with the pure, rich, red blood of health. It builds new, firm flesh, healthy, active nerve fibers, and strong elastic muscles. It cures 98 per cent of all cases of consumption, and wasting diseases. It cures nervous prostration. Druggists sell it.

The man who is too lazy or neglectful to take an occasional dose of medicine to ward off the evil effects of constipation deserves to die. And he will surely get his deserts, for constipation is the first cause of much sickness. Dr. Pierce's Pleasant Pellets cure constipation. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. All good druggists sell them. No other pills are as good.

FRIDAY, DECEMBER 17, 1897.

EASTERN ADVERTISING OFFICE, 230
No 234 Temple Court, New York City.
Kala Agent.M'KINLEY AND GAGE STOLE HIS
IDEAS.

Now comes Hon. T. F. Roots, of
Commerstown, Indiana, and claims
that the recommendations to Congress
on the currency question in Secretary
Gage's report and the President's mes-
sage are not original with them, but
were taken from an article written by
him and approved by Secretary Sher-
man, who was then Senator from Ohio,
in December, 1895. In addition Mr.
Roots says he was chairman of the
committee which framed the call for
the Monetary Convention held at In-
dianapolis. He admits that he was a
candidate for the position of Treasurer
of the United States, and, doubtless,
had the President favored him with
the appointment he would not now pro-
claim through the press that the Presi-
dent stole his financial recommenda-
tions to Congress from his (Mr. Roots')
article.

It was really ungenerous and unap-
preciative in the President to refuse
the man who furnished him ideas for
his message a place in the Treasury
Department. Besides that, was not
Mr. Roots chairman of the committee
that framed the call for the Indian-
apolis Monetary Conference, which
should of itself be enough to endear
him to every goldbug, not only in the
United States, but in Europe and en-
title him to any position he might de-
sire in the Treasury Department. How
can the President and his friends of
the gold trust expect men of Mr.
Roots' ability, men who issue calls for
gold conferences, which are attended
only by bondholders and the agents of
European money lenders, and who
write the financial articles for Presi-
dents' messages a year in advance of
their delivery to Congress, to devote
their time and amazing ability to ques-
tions of that character if their claims
for office are ignored by the Presi-
dents who profit by their labor? Mr.
Roots has undoubtedly good cause to
feel disgruntled at the President and
his Secretary of the Treasury for steal-
ing his financial thunder, which has,
since it was sent to Congress, received
the approval of everybody who favors
making the United States a financial
dependency of Great Britain and dele-
gating to national banks the right to
coin money, which the Constitution
authorizes Congress alone to do. It
shows that goldbug President's can be
ungrateful and do not hesitate to re-
pudiate the claims for preferment of
those whose ideas they appropriate as
their own and give to the world in
State papers.

Perhaps Mr. Roots had his article
copyrighted. If he did he may bring
suit for damages against the President
and the Secretary of the Treasury for
infringement upon his patents for our
financial ailments. It would be novel
and interesting to have the President
and Secretary Gage appear in court as
defendants in a suit to recover dam-
ages for appropriating in a message to
Congress, as original matter, the ideas
and language of the originator of the
Indianapolis Gold Conference written
in 1896 and approved by John Sherman.

Mrs. A. G. DeLisle and Mrs. Louise
Smith of Los Angeles, were very dear
friends but are no longer and do
not speak as they pass by. Mrs. De-
Lisle is very wealthy and one day
while out riding with her friend, Mrs.
Smith, she drew a large sum of money
from the bank and left it in the car-
riage with Mrs. Smith while she did
some shopping. Upon her return she
alleged that \$600 of the money was
missing and accused Mrs. Smith of
having stolen it. Mrs. Smith indignantly
repudiated the charge and
brought suit against Mrs. DeLisle for
slander and asked for \$50,000 damages.
The case was tried in a Superior Court
and Mrs. Smith obtained a judgement
against her old friend for \$1,000. Now
Los Angeles ladies are much more
guarded in their remarks about each
other than heretofore and there is less
slander and fewer insinuations at the
social gatherings of the upper-ten in
the City of the Angels than for years
past.

The Banking and Currency Commit-
tee of the House of Representatives, of
which Congressman Newlands of this
State is a member, is holding animated
sessions. It has been planned by the
gold members of the committee to re-
port to the House at once a bill em-
bodying the President's financial rec-
ommendations. This proposition was
combated by Newlands of Nevada,
Johnson of Indiana, and Mitchell of
New York, and the committee, though
largely Republican, could not agree.
The committee finally resolved, after
hearing Secretary Gage, to adjourn
until January 12th. Much will depend
upon the report of this committee. If
it antagonizes the Secretary's recom-
mendations even Mr. Reed's end of
Congress may not pass a bill to retire
greenbacks.

CARROLL D. WRIGHT, Commissioner
of Labor, in response to an inquiry of
Senator Lodge, shows in a detailed
statement that nearly \$10,000,000 could
have been saved to the people in taking
the last census had the Census Bureau
been under the civil service. Mr.
Wright refers to his own experience at
the head of the Census Bureau, saying
a chief executive officer could not be
expected to render the highest grade of
service when he is continually har-
assed with political place hunters.

MODERN NEWSPAPERS.

There Are No Prejudices in the Way of
the New Journalist.

The new journalist has no prejudices
that interfere with his business ends.
The founder of his school was the first
man to make an absolutely nonpartisan
paper, and the successful men I talked
with declared that the best way com-
mercially to make an editorial page
was to turn it over to some man with
mind and character who would direct
its policy independently and in good
faith in the interests of the community
as a whole, regardless of parties,
cliques, advertisers or any other inter-
ests, however powerful. But while this
is being done the business man who
proposes to conduct the enterprise
would have an equally independent
news department, and, having the most
intelligent readers to begin with, he
would broaden the news policy from
their point of view, spending as much
sensationalism costs for more important,
better written news. In short, the com-
mercial ideal contains distinct apprecia-
tion of the power of opinion, but it
prizes just as highly the value of the
authoritative statement of all the news.
"There's not room for many such
newspapers, but that's the kind that
would live and pay forever," said my
new commercial journalist.—J. Lin-
coln Steffens in Scribner's.

Rose to the Occasion.

The story of a young woman who
wound up her letter to a friend with,
"P. S.—I forgot to tell you I was mar-
ried," is matched, says the London Tel-
egraph, Miss Kate — of Belfast re-
cently consented to adopt the name of a
gentleman friend, and so they were
married. She is in Dublin now and is
stopping at the Gresham hotel. The
other day she made some purchases,
and in going home she said, "You may
send them home for me—Miss Kate
—, Gresham hotel."

She had reached the sidewalk before
she recollected that she had given her
maiden name. With admirable wit she
stepped back and said to the clerk, "Oh,
by the way, send that package to Miss
Kate —, care of Mrs. —, Gresham
hotel," and she swept out of the store
as if she had been married 15 years.

A ledge of marvelously rich ore has
been found near Downville, Cal., in
the Rising Sun mine. The rock is
what is called ribbon quartz, and the
gold lies in layers, some of it a quarter
of an inch in thickness, and one piece
of rock was taken out that contained
forty-nine ounces of gold.

Messrs. Muller & Stumpf of the Rabst Agency carry an excellent stock of wines and liquors. The wines are especially adapted for medicinal purposes. Orders filled in quantities to suit and all goods guaranteed.

I have just received a complete and well selected stock of gents' furnishing goods, underwear, overalls, socks, suspenders, handkerchiefs, ties, etc., which I guarantee to be equal if not better than any in the town, which I will sell at prices that defy competition. My stock of domestic and imported cigars and tobaccos is complete in every particular, comprising such brands as the Nerve, Carl Dunder and Royal in the 5-cent goods, and El Belmont, Sanchez, Hays, De Vallens, Interactions, Hotel Brunswick, General Arthur and many others in the imported goods. Call and be satisfied. Free employment office in connection with the store. A. NELSON.

HUMBOLDT COUNTY.

Its Resources Being Developed—Nickel and Copper Deposits Being Worked.

Our sister county isn't making much noise, and has no use for brass bands, but it is quietly and surely having its resources developed.

Humboldt county, abounds in substantial resources, it has more variety of mineral than any single county in the mining world.

South of Lovelock, nickel deposits are found, but unfortunately the mines have never been handled by honest administration and as a result the district has been handicapped and never had a chance to make a showing. These nickel deposits, when in the possession of companies meaning business and who will prosecute the development on the merit of the mines, will prove to the world the treasure that is contained in that ridge of the Humboldt mountains.

The latest important enterprise is the opening of a vast copper belt situated fourteen miles south of Golconda. Fortunately these claims have gone into the hands of practical mining men, who thoroughly understand the working of that class of ores. A splendid company was organized with sufficient capital to properly prosecute work in development of the large ore bodies and erection of an immense smelting plant. The smelter is located about one mile east of Golconda and is in plain view from a railroad train when traveling in that vicinity. As a result of the new work, Golconda is the center of attraction and is securing the direct benefit from the enormous expenditure of money. It does the heart good to once again see such a mining enterprise started, working on real merit, shipping out matte to the markets of the world, there to be converted into the coveted gold.—Elko Independent.

ANOTHER DURRANT.

A Woman Murdered in a San Francisco Flat.

The discovery of a horrible murder in an upper flat of 803 Guerrero Street, San Francisco, startled the people of that city about 5 o'clock on Wednesday evening. The victim is supposed to be Mrs. Mary C. Clute, a wealthy woman from Watsonville, Cal.

She had just rented the flat from Mrs. Blanchard and had been having carpets laid. The noise of the tacking ceased and the occupants of the lower flat heard screams and started to investigate. They saw a man leave the house hurriedly by a rear alleyway, but when asked the cause of the trouble he evaded the question and left the premises. Upon going into the flat the dead body of the woman was found and the indications were that she had been outraged and murdered.

Joseph Foley, a carpet layer, who had been employed by Mrs. Clute was arrested, but he stoutly maintains that he went to the flat and left there after the carpets were laid and knows nothing of the murder. His assistant a man named Jackson left half an hour before him. A dispatch from Watsonville says that Mrs. Mary Clute removed from there about eight months ago and that her husband is a commercial traveler. The fact that the crime occurred in the Mission District about five blocks from Emmanuel Church again brings up the murder of Blanche Lamon and Minnie Williams in all of its horrible details.

Renewing Old Acquaintance.

Rev. R. A. Maynard and his wife, Rev. Milla Tupper Maynard, spent the day here yesterday shaking hands with old friends. They were warmly welcomed and were busy all day calling on old Reno friends. Mr. and Mrs. Maynard are on their way to Salt Lake, where they go to take charge of the Unitarian Church in that city.

Yesterday an informal reception was given at the Lodge Hall in the Investment Company's building in honor of their visit and an enjoyable afternoon was spent. Mr. and Mrs. Maynard resumed their journey eastward on last evening's train.

A Feast of Good Things.

Tomato Soup—One quart of tomatoes, 1 quart of milk, 1 pint of water; boil water and tomatoes together twenty minutes, then add the milk and one teaspoonful of soda. Let it boil up after adding milk and soda, season as you do oyster soup, with butter, salt and pepper. Pour through a sieve or colander into a tureen.

Cabbage Salad—Yolks of four eggs, four tablespoons of milk, three tablespoons sugar, one teaspoon pepper, one teaspoon salt, one-half teaspoon mustard, lump of butter size of hickory nut, one cup of vinegar. Stir all together in a double boiler and cook till it thickens. When done pour over chopped cabbage.

Potato Salad—Boil ten medium sized potatoes, when done peel, when partly cool slice very thin, add one tablespoon onion chopped very fine, salt and pepper, add three tablespoons melted poultry fat, butter or both, one teaspoon hot soup stock, vinegar to suit taste, mix well as each ingredient is added; to improve, make dressing of yolks of three eggs, one teaspoon mashed potatoes, pinch of mustard and same of salt, sprinkle of cayenne pepper, one-half wine glass olive oil dropped in and stir long and well, juice of half of lemon or one teaspoon of vinegar, pour over and garnish with lettuce or parsley.

"Job's Turkey."—Use two small rounds of veal steak, stitch the edges together, leaving an opening to receive the dressing. Make a dressing of bread crumbs moistened with milk and seasoned with butter, pepper, salt, chopped onion and parsley or sage. Stuff the "turkey," stitch up the opening and dredge with flour. Put a little butter and water in the roasting pan to baste with, adding more water as required. Roast in a moderate oven an hour. Thicken the gravy with browned flour.

Apple Cream—Two sour apples grated, whites of two eggs, one cup of pulverized sugar. Beat the eggs stiff, then add the grated apple and sugar and beat half an hour. Serve with cold custard.

"Tennessee's Pardner."

The popular theatrical attraction of the present day is the one that pleases the largest number of theatre-goers. Dramatic writers have recognized this, and in the combination of comedy and pathos have evolved the "comedy drama," which is neither tragedy nor farce, but a delightful medium. One of the most successful of the latter class of plays is "Tennessee's Pardner," which had a wonderfully successful tour last season. According to the criticisms of some well known writers "Tennessee's Pardner" is a gem in its naturalness, the main incidents of the play being founded on actual occurrences. The scenes are laid in the mining regions, the action taking place during the present day in this vicinity. Legitimate comedy of a high order predominates its dramatic story, but the latter is thrilling in the extreme. The laughable doings and clever dialogue of some of the characters arouses shouts of laughter from the audience and the play is warranted to cure the worst case of blues, and send the theatre-goer home happy in the recollection of a highly enjoyable evening's entertainment. The organization presenting the play contains the names of well-known players, who are decided favorites here. "Tennessee's Pardner" comes to the Opera House next Saturday evening, December 18th, and will be staged in the same careful and elaborate manner which won for it the greatest financial and artistic success of the season at the Columbia Theatre, San Francisco.

The Wheelmen's Ball.

The society event of the dancing season will be given by the Reno Wheelmen on New Year's eve in the form of a swell party at the Pavilion. No pains or expense will be spared to make this affair not only equal, but superior to their party of last February. The very best of music has been secured and the committees are perfecting every arrangement to make this occasion one long to be remembered by the party-going people of Reno.

Deadly to Snakes.

At an Irish fair at Chicago a large map of Ireland made of sand from the Emerald Isle was a feature. A green snake two feet long was placed on the sand that represented King County situated near the middle of the map. His snakeship started for Galway and crawled all over the map in an attempt to escape, growing perceptibly weaker, finally getting over the King County boundary again and stretched out and died. The snake was only on Irish soil ten minutes when it gave up the ghost.

Sol Levy's store presents a handsome appearance. It is tastefully decorated for the holidays and he has any number of articles that will please mama, sister, daughter, wife or sweetheart.

E. R. Clute, the husband of the Mrs. Mary A. Clute who was so foully murdered in San Francisco on Wednesday night, passed through from Winnemucca last evening. He is completely prostrated over the terrible affair and knows nothing except what has been published in the San Francisco papers and the telegrams received for him to hasten home. He is the salesman of a San Francisco baking powder and spice firm.

It is said that there are two petitions being circulated in Douglas County now. One asking that the perpetrators of the Ueber lynching be brought to justice and the other endorsing the action of the mob. Commissioner Rodenbaugh expressed himself last Monday "that there were too many of Ueber's kind in the County" and judging from the Ueber affair he is about right and that is the very reason why they should be apprehended.

A New Discovery of Sulphur.

Ed M. Emmons of Lovelock visited the JOURNAL office yesterday. According to Mr. Emmons, Lovelock is a prosperous community. The agricultural and stock interests have had a good year and the people generally are satisfied and happy. A little mining and prospecting is going on in the neighborhood with varying success. Mr. Emmons is working a new discovery of sulphur about 30 miles west of the Humboldt House and between the Aleck Wise and old McWorthy sulphur deposits. He has taken up 160 acres and in three weeks time has opened up 13 deposits the largest being 14 feet in width on the surface. Mr. Emmons believes he has a good thing and will devote his energy and time in developing the mine.

Back From Gold Creek.

B. M. Coffin has returned from Gold Creek. Everything is closed down there for the winter and a renewal of operations in the spring will depend upon the expected re-organization of the Gold Creek Company. It is claimed that there is plenty of gold in and around the camp, but bad management has crippled matters so and created so many doubts, that it will take some months to straighten out the complications.

Mixed English.
American and English tourists who visited Ischl, in Austria, recently were confronted with the following notice on a signboard over the door of one of the hostleries of the place, "To the gentlemen Englishers and Americans, here you become asses." Upon inquiry it was learned that the proprietor of the place had donkeys to let which were used for excursions into the neighboring mountains. A much traveled cabdriver, who professed to be able to master the English language, was responsible for the unique wording of the sign. He had translated the German sentence, "Hier bekommen ihr Esel," the actual words meaning "here you can hire asses."

IN THE ANIMAL KINGDOM.
The Duration of Life Varies According to Circumstances.
Among the long lived in the animal kingdom we may mention birds, fish and reptiles, although even in the lower animals the duration of life varies immensely, according to the species. Of fish, the carp are especially long lived. Among birds, some of the parrot species are supposed to live over 100 years. The swan, the raven, the eagle, are also credited with great length of life. In the mammalia, the elephant attains the greatest age. It grows for 25 or 30 years and is said to live from 100 to 150 years and even longer. We have no accurate means of ascertaining the whale's age. A lion is said to have lived 70 years in the Tower, but there is no evidence that he attains anything like that age in the natural state. Forty years is recorded by naturalists as the extreme age. The camel may attain the age of 50. It eats little and drinks less. The horse is comparatively a short lived animal, but it does little work and passes the greater part of his days in pasture he may attain to about 40 years of life, but when a horse is hard worked and fed, moreover, upon beans, oats and other ossifying foods his days are much shorter. In the vegetable kingdom the yew attains great age. Those at Fontainbleau are about 1,200 years old. Two orange trees at Rome, planted respectively by St. Dominic and Thomas Aquinas, are said to be from 500 to 600 years old, and there are records of tropical trees that, counting by their rings, are supposed to have attained the age of 800 to 1,000 years.—Nineteenth Century.

SHERIFF'S SALE.
BY VIRTUE OF AN EXECUTION ISSUED out of the Second Judicial District Court of the State of Nevada, in and for Washoe county, wherein the Bank of Nevada, a corporation, is plaintiff, and Stephen Conner, a defendant, upon a judgment rendered the 14th day of December, A. D. 1897, for the sum of eight hundred and thirty nine and seventy-one one hundredths dollars (\$839.71) in gold coin of the United States, and costs \$17.23, besides costs and interest, I have this day levied upon all the right title claim and interest of the said defendant, Stephen Conner, of and to the following described real estate situated in Washoe County, State of Nevada, and described as follows:
The southeast 1/4 of the southeast 1/4 of section 1, also all of the northeast 1/4 of the northeast 1/4 of section 2, lying north of the right of way of the C. P. & N. E. less the lot in the above tract sold by defendant Stephen Conner to R. G. Gurn on March 7, 1895, all in Township 19, North Range 18 East, 2, 1, 1, & M. also twenty-five inches of water appurtenant to the above tracts from the Sullivan creek, said above tracts are further described and designated in that certain map filed by the said Stephen Conner on June 11, 1897, in the office of the County Recorder of Washoe county, also fractional blocks in Conner's Addition to Reno, situated north of blocks M. and N. bounded on the west by Union street, on the south by Oak street, on the north by north line of section 11, T. 19, S. R. 18 E., M. D. B. & M., as shown by the map of said Conner's Addition on file in the County Recorder's office of Washoe County. Public notice is hereby given that I will on Tuesday, the 4th Day of January, 1898, at 10 o'clock P. M., of said day in front of the Court House door of the County of Washoe, Nevada, sell at public auction for gold coin of the United States, all the right title claim and interest that said Defendant Stephen Conner now has in said property, and all the right title claim and interest that the said defendant had in said property, at the 15th day of November, 1897, the same being the date on which a writ of attachment issued in said court and cause, and was duly levied upon said property, or so much thereof as may be necessary to raise sufficient money to satisfy said judgment, with interest, costs, etc., to the highest and best bidder.
Sheriff of Washoe County.
Dated this 18th day of December, A. D. 1897.

"It's no use; I've tried dozens of places and it's simply impossible to get good tobacco for five cents."
"Good cigars, you mean. If you'd invest your nickel in Piper Heidsieck you'd get the best piece of tobacco you ever put between your teeth."

Judges of good tobacco everywhere are unanimous in their praise of

PIPER HEIDSIECK PLUG TOBACCO
(CHAMPAGNE FLAVOR)

It is not only the best chewing tobacco on the market, but since the recent increase in size (making the new plug nearly half as large again as the old) it is positively the biggest piece of good tobacco ever sold for five cents.
